About Me

I'm a graduate of IT Step Academy with experience in both frontend and backend development. I've worked with technologies like HTML, CSS, JavaScript, React, Angular, and Tailwind on the frontend, and C# for backend development. I also have experience with SQL databases and have completed several projects that have helped me sharpen my skills. I'm passionate about self-learning, always eager to explore new technologies, and excited to take on challenges that help me grow in the tech industry.

Technical Skills

Frontend Development: HTML, CSS, JavaScript, React, Angular, Tailwind CSS, Node.JS
Backend Development: C#
Databases: SQL
Other Tools: Git, Visual Studio, VS Code, Figma
Soft Skills: Problem-solving, teamwork, adaptability, communication
